Mockup

Is it possible to make the content of a `PopupContainerEdit` owner drawn, just like in this mockup?

This is from the Color Edit example

This is from the PopupContainerEdit example

The screenshot shows a standard Windows-style font selection dialog. At the top, there is a color selection area with a dropdown menu showing the hex code "192; 192; 255". Below this, the dialog is split into two main sections: "Font:" and "Font Style:". The "Font:" section contains a list of fonts including Simplified Arabic Fixed, SimSun, SimSun-ExtB, Snap ITC, Stencil, SWGamekeys MT, Sylfaen, Symbol, Tahoma (which is currently selected), and Tempus Sans ITC. The "Font Style:" section has checkboxes for Bold (checked), Italic, Strikeout, and Underline. At the bottom right, there is a "Size:" field with a spinner control set to "8,25".
